HELLO,

I Am WELLY PUTRA GANDA

Robotic Coach || Science Teacher || UI/UX Designer || Web Developer

More Than 8 Years Experienced in **Education Field (SMP-SMA-SMK)**

Has Handled **2 Big Projects** about Microcontroller (**ARDUINO**)

Let's Talk

[Download My Curriculum Vitae](#)

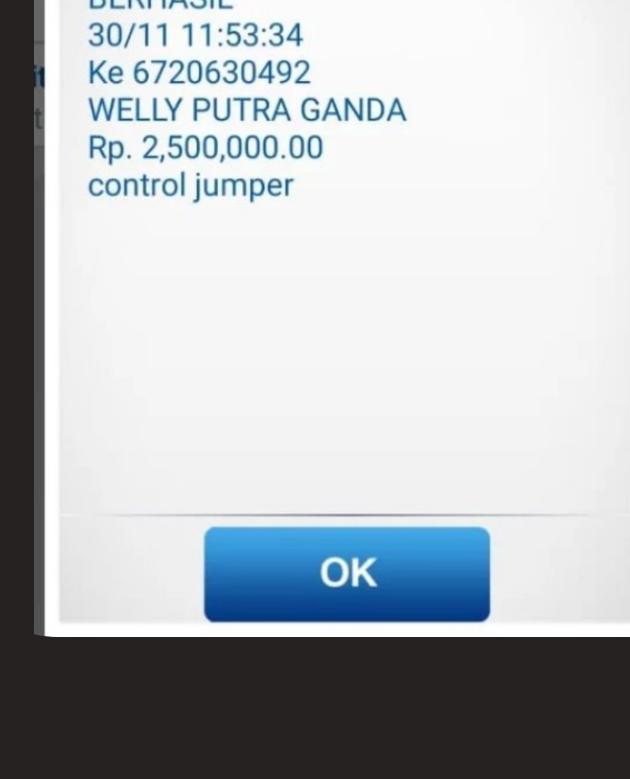

About Me

"Knowledge is not about how much you know, but how far you share that knowledge."

I am industrial electrical engineering graduate from PENS (*Politeknik Elektronika Negeri Surabaya*). This year I already 28 years old. Such as worker, I have good time management and working commitment, looking for find the opportunity to work in a fun and challenging working environment that will encourage him to improve and learn new knowledge. It is needed to helping himself and company for grow in the **electrical field further (Coding Microcontroller-Android's apps, PCB Design, PLC, Electrical Installation until 3D Design about Micronic Components)** and **education side (Math, Physics and Robotic)**.

TEACHING SKILL

UI/UX & CODING WEBSITE

Electrical Design

6 years of being in the world of electricity both in terms of education and projects, made me have knowledge about weak current electricity and strong design.

Coding Skills

9 years of experience in the world of coding both for microcontrollers, websites and HMI applications on android. I started it when I was still in college.

Teaching Skills

More than 9 years I have been working as a private teacher for mathematics and physics. And 3 years of teaching at high schools and vocational schools in the field of robotics.
